♦ Simple Rss (WP)	Oct.2012-Nov.2012	Programmer, UI
♦ Portable Task (WP)	Sep.2012-Oct.2012	UI

Self-Evaluation

Started working in a venture company when I was in my junior year. In my senior year, I became the partner of this company. Have been experienced the worst situation that there`s only three members left in our company. And I am experiencing the fulfillment brought by more than twenty members stand-meeting together. I used to be a programmer, and I also have been an art designer. Have deeply passionate in UI. Dream of being a designer, but I am a PM in reality. Self-positioning again and again let me know more about myself. Expect challenges, eager for the unknowns. Love the pleasure brought by exchanging ideas with others. And enjoy the courage brought by teamwork.
